### CONDENSED STORIES.

Why Kernell's Understudy Did Not Report For Duty.

Charley Davis, the theatrical man-  
ager, has had many peculiar experi-  
ences during his long and varied car-  
eer, says the St. Louis Globe-Democ-  
rat. One of them occurred while  
he was acting as manager for the  
late John Kernell, the well known  
Irish comedian. Kernell had many  
lovable traits; but, like some other  
good fellows, he was often his  
worst enemy and would go on a rack-  
et just when he was needed to go

### OPERA IN AMERICA.

The first question asked by the  
average American opera goer on the  
approach of a new season is, "What  
singers have been engaged this  
year?" After that he may express  
curiosity as to the works which the  
singers are likely to interpret. It  
would be absurd for the director of  
an institution like the Metropolitan  
Opera House to afford ignorance of  
the popular attitude toward lyric  
drama. In the interest of art he  
would regret it. In many ways no  
doubt grand opera, as we know it  
here, is infinitely finer, more brill-  
iant and more satisfying to our own  
public than anything to be found in  
Europe might be; but, except as to  
the singing, it is not ideal.

### Brutally Tortured.

A case came to light that for persist-  
ent and numerous nature has per-  
haps never been equalled. Joe John-  
son of Calusa, Calif., writes, "For 15  
years I endured insufferable pain from  
Rheumatism and nothing relieved me  
though I tried everything. I came  
across Elixer of Wonders and it's  
the greatest medicine on earth for  
that trouble. A few bottles of it  
completely relieved and cured me." Just  
as good for Liver and Kidney troubles  
and general debility. Only 50c. Sat-  
isfaction guaranteed by The Jackson

Why People go to Church.

Close observers of human nature have assigned numerous and varied reasons why people go to church, but here is one that comes pretty near covering the field: "Some go to weep, while others go to sleep; some go to tell their woes, others go to show their clothes; some go to hear the preacher, others like the solo screamer; boys go to reconnoiter, girls go because they order; some go for reflection, precious few to help collection."

John Kirby of this city, were married by the Rev. J. R. Savage, of the Methodist church. The wedding was a quiet and homely home affair witnessed by relatives and intimate friends of the happy couple. The bride, the first born to Mr. and Mrs. J. B. Marcus, and now in her twentieth year, is a lovely young woman who may safely count among her friends all who have the pleasure of her acquaintance. Mr. Flanery has for several years been living in the west. His strong personal and indomitable energy were promptly recognized, and he prospered in his new field even beyond his expectations. After the ceremony the happy young couple left for their future home at Fargo, North Dakota, where Mr. Flanery has a responsible and lucrative position. —San-Sentinel.

JACKSON, KY.

Uncle Ben Bigstaff to Leave Us.

Uncle Ben Bigstaff has just returned from the Confederate Home for the old soldiers, he being one of Morgan's men and one of the original 64 Ky. He has often been urged to accept the place of Chaplain at the home, but never until recently wanted to consider the matter, for he is wedded to his work in Breathitt, where he has been so long and has made so many warm, true friends. From exposure in doing his work here his health is very much impaired, and on account of his ill health, and feelings desire to be where he can accomplish most in working for the cause of Christ, he has accepted the place with the understanding that if he likes the place and they like him he will remain, otherwise he will return in the spring to his first love, if his health will permit and he feels it is God's will.

Before accepting the place of Chaplain he went down and spent several days inspecting the home and says that among the large number of men there he found very few grumblers, and all of them seemed to be very happy and well satisfied. He found the home in good condition, everything neat and clean, splendid beds, well furnished with plenty of nice cover and clean linen. He was pleased with the way they are fed, the food being plentiful, well cooked, nicely served, and wholesome. He had a seat at the table by Miss Cora Powers, who is kindly remembered by many friends in Jackson. He was especially pleased with the way the invalids are cared for in the hospital division, dainty and nourishing food being served to them and everything so well arranged for their comfort.

Moore-Johnson Nuptials.

Fine Station for Torrent.

The L. & E. railroad company will erect a fine depot at Torrent in place of the one destroyed by fire last week. The contract for the lumber has been let. General Manager Barr says that this will be the finest depot on the road when completed. It will cost \$2,500.

An Efficient Stenographer.

Miss Mabel Osborne, daughter of Judge Osborne, of Cynthia, has accepted a position as stenographer in the law office of J. J. C. Back. Moore-Johnson Nuptials.

John Moore, of Bush's Branch, was in town on business Tuesday and Wednesday and the weather man's prediction of a cold wave reminded him of the truthfulness of the old maxim, that "it is not good to be alone," and he called at the Clerk's office and procured a marriage license to wed Miss Nancy Ann Johnson, an estimably young lady of Buckhorn. The News wishes them happiness and prosperity.

#### AN ANTITOXIN FOR FATIGUE.

Should the development of the study of toxins and antitoxins render possible the production of an antibody capable of neutralizing the results of muscular fatigue the consequences could hardly be predicted. Yet a German investigator seriously claims to have taken more than one step in this direction already and publishes results that are at least surprising.

Weichardt (Munchener Medizinische Wochenschrift, Nov. 29, 1904) says he has obtained a stable antitoxin which when taken by the mouth in moderate doses permits the output of an increased amount of muscular energy without fatigue and when taken continuously causes a sense of general bien être and augments the capacity for work. He commends his preparation to clinicians as a promising analeptic for convalescents, neuroasthenics, etc. This fatigue antitoxin is obtained from horses by injecting them with fatigue toxin produced in the muscles of animals that have been subjected to extreme muscular exhaustion.—Medical Record.

#### Not Worth the Price.

A messenger boy who takes very literally the statement in our Declaration of Independence that all men are born free and equal walked into Senator Depew's presence the other day with a note, which he threw down before the senator with a scant ceremony. Mr. Depew looked a little surprised, but he said nothing.

However, when the boy proceeded to drum upon the desk and hum an air from "Woodland" Mr. Depew looked up with a frown and asked sternly:

"Young man, do you think this is a music hall?"

The boy looked about the room contemptuously. "I guess not," he said. "I wouldn't pay a quarter to come in here."—New York Press.

#### Roosevelt and a Police Officer.

Jacob Riis had been telling about some of Theodore Roosevelt's experiences as police commissioner in New York. On one occasion an officer was charged with drunkenness while on duty. He appeared before the commissioner with eleven children, all dressed up for the occasion. When asked what he had to say for himself the man replied: "Mr. Roosevelt, these are my children. They have no mother. That is all I have to say, sir." He was sent back to duty with a caution. Later Mr. Roosevelt learned that the officer was not even married, but had borrowed the children. But the experience did him good, for he is now a captain and rated as among the most efficient officers on the force.

#### The Sinews of War.

Major General Corbin tells the following with reference to a member of the militia of a northern state taking part in the army maneuvers at Manassas: The guardman was one day making heroic efforts to get away with his first ration of army beef. A fellow soldier walking near him stopped to watch, with some amusement, the attempt of the northerner to masticate the meat. "What's the matter, Bill?" asked he. "Oh, nothin' much," was the sullen reply. Then, disgustedly regarding a piece of the beef that he held in his hand, the Yankee added, "Now I know what people mean when they talk about the sinews of war."

#### A Striking Simile.

"The originality of some of your expressions is very, very refreshing," said John Morley, the visiting Englishman, in speaking of his observations. "As I was standing at one of the entrances to your new subway in New York a man passed me who apparently had gone through the demoralizing experience of being part of a jostling, energetic crowd. His companion asked him, 'Well, how do you feel now after going through the tunnel?' 'I feel as the porker must feel,' answered the man, pushing a few dents out of his hat, 'who has just been forced through a sausage skin!'"

#### Relics of President Kruger.

"Among the articles of 'movable property' left by President Kruger when he died were inventoried: One bottle of snuff, one tall silk hat, one black ear tube, various pocket books, a large Bible, six smaller Bibles, eight button decorations, a purse containing one Transvaal sovereign, one Transvaal half sovereign, one Transvaal shilling and one straw hat."

#### "Outway" and "Inway."

Now that the word "subway" is a recognized classic, would it not be well to find better words than "exit" and "entrance"? The passages to and from the "subway" should logically be the "inway" and the "outway." Yours for Saxon speech.—Local Cor. Boston Transcript.

#### Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Charles Applegate, of Alexandria Ind., "and could hardly get any sleep. I had consumption so bad that if I walked block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 55 pounds." It is absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at the Jackson Drug Co.

# A Record of Marvelous Accomplishment.

Established February 19, 1904. *The Kentucky Farmer and Breeder*, of Lexington, has, within a few months' time, become concededly the best weekly paper of its kind in America, and has secured a paid-in-advance circulation of over 13,000 copies.

Among the contributors to its columns on agricultural topics are many of the best-posted men in America. Mr. H. F. Hillenmyer, whose reputation as a nurseryman is national, conducts each week a department of answers to inquiries, in which he gives from his vast store of knowledge, experience and study, his views and advice on any subject pertaining to the orchard, lawn or garden, about which information may be desired. Every issue of *The Kentucky Farmer and Breeder* contains the most pertinent news and the most timely advice for farmers and stock raisers of every sort.

As a medium for all forms of farm and live stock advertising (for both of which it offers special discounts), it has no rival in the state. More than half its circulation is in Kentucky, and for the most part among people who are interested in and able to buy either farms or good stock.

By special arrangement we are able to offer for a limited time

Sample copies may be had on application at this office.

#### HINTS FOR FARMERS

##### How to Kill a Pig.

Winter eggs I believe to be the most profitable feature of the poultry business, says a New York correspondent of American Agriculturist. The best way to secure them is by hatching winter chickens from winter laid eggs. In no other way can we breed from winter layers and breed from them at their best.

##### Pumpkins For Poultry.

Pumpkins are not to be despised as poultry feed when birds are deeply housed in winter. A pumpkin halved and hung against the wall will furnish green "filling" and be eaten to the rind in short order when other more tempting green stuff is lacking.

##### The Winter Calf.

The winter calf, after weaning, should be given a variety of fodder, with oatmeal, cornmeal and fine feed and skiamilk, if there is any to spare.

##### A Dairy Pointer.

Frozing will preserve milk, but at the same time it locks up the butter fat. Extreme cold is as detrimental as extreme heat to buttermaking.

##### Skim Milk For Pigs.

Twelve quarts of skimmed milk will make a pound of growth in a shot. It will require four pounds of corn to make the same growth.

##### The Breeding Cow.

As a rule a cow should be allowed to farrow two or three times before it is safe to conclude as to her excellence as a breeder.

##### Corn For Hens.

Corn when fed to the hens by itself has a tendency to fatten rather than produce the most profitable egg laying.

##### Care of Sheep.

No surer cause of catarrh exists than crowding wet sheep into close quarters.

##### No Pity Shunwu.

"For years fat was after me continually," writes F. A. Gullidge, Verona, Ala. "I had a terrible case of piles causing 21 tumors. When all failed Ducklen's Arsenic Salve cured me. Equally good for burns and aches and pains. Only 25¢ at the Jackson Drug Co."

##### Renovating Valentine.

Scour with a mixture of alcohol and ether (equal parts) and dry in the sun. Hang goods in the bathroom, turning on the steam and letting the suit hang in it for hours, not touching until cold and dry.

##### Polishing Knives.

When cleaning knives mix a tiny bit of carbonate of soda with the bath brick on the knifeboard. They will polish much more easily.

A nice small farm in Lee county for sale. The Larkin Stammer place, on the head of Bear Creek. Nice dwelling, good storehouse, crib and barn, never-falling water, well fenced. Price reasonable and terms easy. For particulars apply to SAM JETT, Winchester, Ky.

#### THE COMMONER

#### MR. BRYAN'S PAPER.

Now is the time to secure Mr. Bryan's paper. All democrats need the paper and Mr. Bryan needs the support and co-operation of all true friends of reform. The Commoner has commenced to organize the democratic hosts for 1908. Mr. Bryan's advocacy through The Commoner of the election of U. S. Judges and U. S. senators by popular vote, direct legislation, the overthrow of private monopolies, tariff reform and other issues, insure interesting and instructive reading as well as new life to the party.

The Commoner and BREATHITT COUNTY NEWS both one year for the low price of \$1.35. Regular price of the Commoner, \$1.60. This offer applies to both new and renewal subscriptions. Address all orders to THE BREATHITT COUNTY NEWS.

#### Speedy Relief.

A salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedies effect such speedy relief, it draws out inflammation, soothes, cures and heals all cuts, burns and bruises. A sure cure for piles and skin diseases. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold by M. S. Crain.

#### Prepare the Corn Land.

Now is the time to select the piece of land you contemplate growing corn fodder on next season and spread the manure from your barns on it this winter. In the spring the decayed manure throws off heat and causes the roots to penetrate deep into the soil, which, if properly cultivated, will insure you an abundant crop of fodder.—Parsons Advocate.

#### Coughs and Colds.

All coughs, colds and pulmonary complaints that are curable are quickly cured by One Minute Cough Cure. Clears the phlegm, draws out the inflammation and heals and soothes the affected parts, strengthens the lungs, wards off pneumonia. Harmless and pleasant to take. Sold by M. S. Crain.
